CaptureProof Wins 2019 CNS Summit Innovation Showcase award

CA, San Francisco

Meghan Conroy was presented with the 2019 CNS Summit Innovation Showcase Award on behalf of CaptureProof at the CNS Summit 2019 on November 2, 2019, during the CNS Summit Innovation Showcase. The CNS Summit took place October 31st – November 3rd at the Boca Raton Resort in Boca Raton, Florida.

The CNS Summit Innovation Showcase is in its 10th year of enabling companies with novel solutions to present to life science leaders. Meghan Conroy stated, “The award is additional recognition that CaptureProof has the opportunity to bring more efficiency to a system that needs it.”

Dr. Kalali, Chairman and Chief Curator of CNS Summit stated: “Many previous winners of the CNS Summit Innovation Showcase award have gone on to be breakout companies in the life sciences. We wish CaptureProof all success in the future.”

About CAPTUREPROOF:

CaptureProof is the leading HIPAA-compliant data-centric platform for capturing, comparing and sharing medical photos and videos securely and asynchronously to enable provider-to-provider and provider-to-patient visual communication to track health and healing over time.
