

FOR IMMEDIATE RELEASE

CaptureProof, Inc. and Peach Health Forge Strategic Partnership to Transform Healthcare in Asia

Singapore, March 27, 2024 - CaptureProof, Inc., a leader in innovative digital healthcare solutions, and Peach Health, a pioneer in the integration of digital and non-digital healthcare resources, are excited to announce their partnership to revolutionize healthcare delivery in Southeast Asia and Australia. With a combined vision to enhance patient outcomes through digital health technologies, CaptureProof and Peach Health will collaborate to explore and capitalize on commercial opportunities across the region.

Southeast Asia and Australia, home to over 600 million people, are witnessing a rapid adoption of digital health technologies aimed at improving healthcare delivery and patient outcomes. Leveraging Peach Health's extensive networks and expertise in the region, this partnership will empower CaptureProof to expand its footprint and introduce its cutting-edge platform to new markets.

CaptureProof's platform, a HIPAA-compliant Software as a Service (SaaS) solution, facilitates the secure capture, comparison, and sharing of medical photos and videos asynchronously. With advanced image analytics and communication functions, CaptureProof is uniquely positioned to support remote therapy, at-home care, and medical tourism. The platform's capabilities align perfectly with Peach Health's mission to provide cost-effective, efficacious, and accessible healthcare solutions to patients in Asia.

"We are thrilled to collaborate with CaptureProof to bring their innovative healthcare solution to Asia," said Louis Payet, CEO of Peach Health Asia. "Not only does CaptureProof's platform support a wide range of therapeutic treatments and assessments, but it is also backed by solid clinical evidence. We believe the product's ability to be used in multiple clinical indications creates several market opportunities that can be explored, and we look forward to bringing this novel solution into Asia to improve patient access to healthcare."

About CaptureProof

CaptureProof is the leading HIPAA-compliant Software as a Service (SaaS) platform for capturing, comparing, and securely sharing medical photos and videos asynchronously. The innovative solution revolutionizes doctor-to-doctor and doctor-to-patient visual communication, empowering healthcare providers with the tools they need to deliver exceptional care. Central to the platform are the Smart Medical Camera™, a device-agnostic tool driven by Media Rx™ that utilizes cutting-edge technology to request specific photos and video clips, improving the quality of data delivery. Patients receive text instructions overlaid on the camera interface, ensuring perfect framing of injuries, wounds, movements, or other visual symptomatology.

In addition to facilitating remote communication, CaptureProof enhances patient care through advanced features such as fall risk assessment, balance scans, facial symmetry, hand movements, finger tapping, and other specific neurology biomarker tracking. Healthcare providers can monitor patients' progress in the hospital, office, or at home, allowing for proactive intervention and personalized treatment plans. This platform

seamlessly enables asynchronous communication, making it easier for patients with long travel times to stay connected with their healthcare providers.

CaptureProof's commitment to innovation and patient-centered care sets it apart as the preferred solution for modern healthcare visual data capture and analysis. The platform has been proven to increase the accuracy of diagnosis by 5.45x¹ and reduce in-person visits by 75%². Join us as we transform the way medical visuals are captured, shared, and utilized to improve patient outcomes. Visit captureproof.com to learn more.

About Peach Health Asia:

Peach Health Asia is a provider of cutting-edge, clinically validated digital healthcare solutions and services within one seamlessly integrated platform. We work with healthcare providers and digital health developers to design healthcare solutions and services that combine digital and non-digital resources with the aim of offering treatments that are cost-effective, efficacious and accessible to customers in Asia.

The Company aims to improve health equity in Asia by providing affordable, patient-centric healthcare using best-in-class digital products and care models. We do this by taking advantage of our expertise in understanding the unmet needs of patients and healthcare professionals in the region, matching these to the best international digital health tools available, and then leveraging on our extensive commercial capabilities to create healthcare solutions that best fits the market need.

Peach Health Asia envisions itself as a bridge between patients in Asia and the global digital health space. We aim to add value by providing digital health product developers a path to market in Asia, while simultaneously engaging with healthcare professionals and empowering patients in the region to offer access to affordable and effective digitally enabled healthcare services. We are based in Singapore and focus on Southeast Asia and Australia. To receive further details please reach out to Louis Payet at lpayet@peachhealthasia.com .
